I understand that to participate with the Visionary Dancers Dance group I must practice the combinations on the DVD and study all corresponding notes online or sent in the mail. The dance moves will be fairly simple for remote dancer participation. I understand I am obligated to show up for the massive rehearsal scheduled on Thursday evening (rain or shine) June 15th. Exact location and time to be announced, but somewhere in Seattle. Friday night is reserved for Belly Dance Bazaar and prop, costume, henna party or other organizational details! I understand that I must comply with the costume color requirements for the out of town dancer contingent. Non-compliance will be a strike against all the hard work other dancers are putting forth to whole-heartily comply and I would not like to let them down. The color requirement is 80% bright golden yellow and 20% red. This means accessories are red not the bulk look or the costume. Gold, brass or silver accessories, trim and jewelry are Ok...Bellies do not have to be exposed. I will need to wear light-weight shoes that are easy to dance in. The style and design of my costume can be freely implemented as long as it represents belly dance (in other words, I won't show up as joke or in some other kind of costume that would distract from our cause. For instance, an animal, clown or pilgrim...). Please no flip-flop sandals, nudity, written words, or live animals. If by chance something comes up and for any reason I cannot make it to the parade I will let VDP STUDIOS know by email! I understand there are no refunds. I wish you luck and will look for all the billion bellies on TV!
